Edwards Fresno Stadium 22

A Documentary of Oppression...

In India, China and many other parts of the world today, children are killed, aborted and abandoned simply because they are female. The United Nations estimates as many as 200 million girls are missing in the world today because of this "gendercide."

Shot on location in India and China, It's a Girl unravels this issue. It asks why is this happening, and why is so little being done to save girls and women? The film tells the stories of abandoned and trafficked girls, of women who suffer extreme dowry-related violence, of brave mothers fighting to save their daughters' lives, and of other mothers who would kill for a son. Global experts and grassroots activists put the stories in context and advocate different paths towards change, while collectively lamenting the lack of any truly effective action against this injustice.

Panel Discussion & How You Can Help...

Following the screening there will be a discussion of the issues covered in the movie with local pro-life and adoption experts:

- Diane Niswander, [Family Connections Christian Adoptions](#)
- Whitney Bunker, [City Without Orphans](#)
- Kristi Burkhardt, [Fresno Pregnancy Care Center](#)
- Josh Brahm, [Right to Life of Central California](#)

IMPORTANT! Due to promotional restrictions from the theater, this special event cannot happen **unless we sell 116 tickets**. Tickets will not be available at the door. [You must reserve tickets online by March 19th](#) for the event to take place. So, please reserve your tickets and tell your friends! We are excited to partner with you to bring this educational event to Fresno.

Life Report Cast Respond to Planned Parenthood's Ad

We're super excited about this episode, because we think it's the best roundtable discussion we've recorded in a long time. Megan Almon from Life Training Institute joins us to discuss the recent Planned Parenthood ad that distances itself from the labels "pro-life" and "pro-choice." While pro-life bloggers discussed the ad when it came out, I felt like we had some unique perspectives to contribute. Discussion topics include the main problems with the argument in the ad, the weaknesses of labels in general, the importance of not stereotyping people and the question of whether moral neutrality is possible on abortion. Josh closes the show with questions for both sides of the abortion debate to consider.
